

Top 10 AI Model Providers & Latest Models (Released in Last 12 Months)									
Provider	Model	Release Date	Knowledge Cutoff	Pricing (Approx.)	Context Window	Model Type	Public Availability	Use Cases	Reasoning
OpenAI	GPT-5.5	Apr-26	Nov-25	~\$12 input / \$36 output per 1M tokens	512K	Private	API + ChatGPT access	Coding agents, enterprise copilots	Elite reasoning
Anthropic	Claude Sonnet 4.5	Feb-26	Dec-25	~\$6 / \$18 per 1M tokens	300K	Private	Claude + API	Long docs, writing, analysis	Excellent reasoning
Google DeepMind	Gemini 2.5 Ultra	Mar-26	Jan-26	~\$8 / \$24 per 1M tokens	2M	Private	Gemini + Vertex AI	Massive context & multimodal tasks	Best multimodal reasoning
xAI	Grok 3.5	Apr-26	Real-time web	~\$5 / \$15 per 1M tokens	256K	Private	X Premium + API	Real-time news, coding	Strong live reasoning
Meta AI	Llama 4 Behemoth	2026	2025	Open/self-hosted	10M	Public/Open Weights	Downloadable	Fine-tuning, private infra	Strong open reasoning
Mistral AI	Mistral Large 3	Jan-26	2025	Enterprise pricing	256K	Private	API access	Enterprise assistants	Efficient reasoning
DeepSeek	DeepSeek R2	Mar-26	2025	~\$1–2 per 1M tokens	256K	Public/Open	Open + API	Math, STEM, coding	Exceptional reasoning
Cohere	Command R+ 2	2025	2025	Enterprise pricing	256K	Private	API	RAG systems, search	Reliable business reasoning

Alibaba Cloud Qwen	Qwen 3 Max	2026	2025	Low-cost/open deployment	512K	Public/Open	Open weights + API	Multilingual AI	Strong multilingual reasoning
AI21 Labs	Jamba 2 Large	2025	2025	Moderate API pricing	256K	Hybrid	API + selective open access	Long-context enterprise apps	Efficient hybrid reasoning

Type	Meaning	Can You Download the Model?	Can You Fine-Tune It?	Typical Access	Examples
Public Model	Freely accessible to users/developers	Sometimes	Usually	API or downloadable	DeepSeek, Qwen
Private Model	Closed-source model controlled by the company	No	No (usually)	API/chat only	OpenAI GPT-5.5, Anthropic Claude
Open-Weight Model	Model weights are released publicly	Yes	Yes	Download + self-host	Meta AI Llama models
Hybrid Model	Mix of open and closed features	Partial	Limited	API + some open components	AI21 Labs Jamba

Recommended Model Selection by Use Case		
Use Case	Recommended Model	Why
Best coding + agents	GPT-5.5	Strong tool use + software reasoning
Best long documents	Claude Sonnet 4.5	Stable long-context comprehension
Best multimodal workflows	Gemini 2.5 Ultra	Handles text, video, audio, image together
Best low-cost AI	DeepSeek R2	Extremely cheap with high reasoning quality
Best open-source deployment	Llama 4 Behemoth	Large context + customizable
Best multilingual support	Qwen 3 Max	Strong Asian + European language handling
Best enterprise RAG	Command R+ 2	Optimized retrieval grounding
